DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: there are no prior arts teaching or suggesting of a fingerprint apparatus comprising:

a substrate;

a plurality of position sensing devices located on the substrate for detecting the presence of an object;

a plurality of group of the position sensing devices, each group being composed of a plurality of sensing devices and each group being electronically segmented and each group being located at a selected, respective position on the substrate; and

an electronic logic circuit coupled to each of the groups for sensing whether a human appendage has been placed adjacent the respective group.

The method of sensing input from a finger of a user comprising:

sensing a first touch location on a substrate at a first time;

sensing a second touch location spaced from the first touch location on the substrate at a second time, after the first time;

comparing an input location sequence of the first and second touch locations to a set of reference location sequences stored in a memory;

outputting a signal indicating a match between the input location sequence and the reference location sequence; and

Art Unit: 2612

performing a pre-programmed function based the signal of the match.

The method comprising:

receiving a fingerprint pattern at a substrate;

sensing the fingerprint pattern with a plurality of sensor cells;

comparing the sensed fingerprint pattern to plurality of stored patterns to determine if there is a match between the received fingerprint pattern and a stored fingerprint pattern;

receiving a command input to the same substrate after the fingerprint pattern has been received;

sensing the command input with at least some of the same sensor cells used to sense the fingerprint pattern; and

sending a signal to carry out the command input only if the previously received fingerprint pattern is a match with a stored fingerprint pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
